

TOKİ SOSYAL BİLİMLER LİSESİ

BİOLOGY IN ESSENCE(ÖZÜNDE BİYOLOJİ)
eTwinning projesine Kurucu ortağı olarak
katılmıştır.

With the Toki High School of Social Sciences 'ESSENCE OF BIOLOGY' etwinning project, the biology course is a dry science that rarely causes intense interest among schoolchildren. Biology course may be a numerical lesson, but due to Latin vocabulary and verbal topics, we will actively and willingly involve students in the lesson, taking into account examples, examples, experiments, web 2 tools, applications to facilitate learning. We will observe biology classes in different countries. Biology lesson has never been this fun and educational.
